# CRACKING THE FOUNDATION

Time is a precious commodity and over the course of several years, we have recognized the value in that time to create several ways to help "Scare the Yell" out of friends and family while being PAID to do so! We are cracking the foundation and offering more ways to be involved!

## HOW TO PUT MONEY IN YOUR POCKET

1. Audition to become a "Crypt Creature," a higher-tiered paid acting program.
2. Audition to become a "Cryptling", a paid acting and non-acting program.
3. Audition to become a "MUA", a paid Make-Up Artist program.

## DO I HAVE TO AUDITION?

In short, Yes. In order to be paid under any category, we need to have a face-to-face discussion to cover your skills, concerns, the basics and more! The word "audition" sounds scary in itself, but trust us when we say there isn't much to it! It's like an informal job interview that favors the likelihood of being hired based on position availability year-to-year. Once you are "in", a contract will be provided that outlines the basic expectations and what you can expect from us. Everything else is a breeze! We will guide you every step of the way until it's showtime!

## CHOOSE A PAID PROGRAM THAT IS BEST FOR YOU

Each paid program is unique and offers different pay scales and time commitments based on your availability, skills and desires to be involved with the Park. It is even possible to double-dip and be paid by more than one program! If you are a skilled Make-Up Artist and a great actor, you could receive pay based on the qualifications of both programs!

## **CRYPT CREATURES**

Our Crypt Creatures are part of an acting program that requires a bit more involvement and time commitment in the off-season (which is a lot of fun!), but is the highest paid, based on the amount of time you are able to provide. We strongly believe that it is worthwhile to invest in you and your character. Crypt Creatures are required to attend various workshops after auditions, attend the final dress rehearsal and be available to work the majority of the season. These workshops are intended to elevate your performance, develop your character, your space and ultimately make sure you are comfortable portraying an alter ego.

## **CRYPTLINGS**

A program that entails every aspect of the Park. While scare acting roles are the MOST IN DEMAND position at any haunted attraction, we have recognized the need to create a program that gives you flexibility to become comfortable with scare-acting and build your actor toolbox for the future. We have had many individuals in non-scare acting positions transition to become a scare actor over time! As a Cryptling, you will work as an actor in all of our attractions, rotating often. You will have the opportunity to learn the ropes at an actor training that brings both Crypt Creatures and Cryptlings together. Cryptlings are an introductory position to the Park that provides the opportunity to get your feet wet (or goeey!), see how fun it can be and allow you to grow into other roles you are more comfortable with such as a Crypt Creature! The time commitment is less than a Crypt Creature too!

## **MAKEUP ARTISTS**

Our Makeup Artists are responsible for creating and transforming our actors into horrifying creatures from night-to-night. Although this is a very limited and specialized program that requires a skill, openings vary from season-to-season. Similar to Cryptlings, you can get your feet wet, see everything in action, practice your skills and audition when an opening occurs. What is great about this program is that you do not have to produce Hollywood quality as an artist. There are different paid tiers and positions (hair & teeth) that do not require a high-skilled artist. This program allows you to learn, grow and refine your skills over time with the hopeful intent of being "promoted" to a higher paid tier.
